Review of Period Ended April 30, 1966

TO THE SHAREHOLDERS:

Your Directors take pleasure in submitting the Thirteenth Annual Report for the period ended April 30, 1966. The balance sheet has been brought up to this date in order to provide shareholders with current information.

Total Current Assets as of April 30th, 1966, were \$708,087.80 as compared to \$851,844.54 on December 31, 1964. The decrease in Working Capital can be attributed mainly to the active exploration programs being conducted by your company. Total advances to Columbium Mining Products Ltd. to April 30, 1966, amount to \$382,246.16.

Columbium Mining Products Ltd., in which your company hold approximately 52% of the issued capital stock, has entered into a sales contract with Continental Ore Corporation of New York, which provides for the sale of a minimum of 2.6 million pounds of Columbium pentoxide per year for a 10 year period from the start of full production. Detailed information regarding this deal has been given to registered shareholders by a progress report dated April 15, 1966.

Negotiations for senior financing are underway and management is hopeful that this can be arranged so that a production target date in the fall of 1968 can be met.

A total of 10,635 feet of diamond drilling was done on your company's "Tower Group" property in the Bathurst-Newcastle area of New Brunswick. No ore bodies were located. A mineralized tuff zone carrying scattered low values in copper and zinc was encountered and after a thorough technical study, consideration will be given to additional work.

The company holds extensive acreage in this mining district and a second exploration program is ready to start on the area north of the Nepisiguit River and east to the Brunswick #6 boundary. This preliminary program will consist of line cutting and a Self-Potential survey and will likely be followed by an I.P. survey and diamond drilling of the more favourable locations.

Interests in concessions located in County Tipperary, Ireland and mining claims in Reaume Twp., Ontario, were maintained in good standing during the year.

Your company will maintain its active prospecting and exploration policy.

Respectfully submitted,

E. P. McDONOUGH,

May 31, 1966.

President.

AUDITORS' REPORT

We have examined the balance sheet of Coulee Lead and Zinc Mines Limited as application of funds for the sixteen months ended on that date. Our examination include supporting evidence as we considered necessary in the circumstances.

In our opinion, the above balance sheet and attached statements of deficit, defer position of the Company as at April 30, 1966, and the results of its operations for the sixte on a basis consistent with that of the preceding period.

TORONTO, Canada, May 24, 1966.
